# Objective and Characteristics of the Fund

## Objective of the Fund

This Fund invests in Real Estate Investment Trust (REIT) securities and structures its portfolio in accordance with the calculation method of the Tokyo Stock Exchange REIT Index, and in principle by maintaining such portfolio aims to keep the NAV of the fund closely linked with the movement of the Index.

\*The Tokyo Stock Exchange (TSE) Real Estate Investment Trust (REIT) Index is a weighted aggregate market price type index for all Real Estate Investment Trusts (J-REIT) listed on the Tokyo Stock Exchange. The Index is calculated, with the base date set as March 31, 2003 (closing price). It assumes the aggregate market price on that day to be 1,000, by creating an Index for aggregate market price after the above base date.

If and when necessary, the aggregate market price is modified to avoid being affected by non-market factors such as capital increase, new listings and delistings, etc., to ensure Index continuity.

Tokyo Stock Exchange REIT Index =	Total market value (yen) at computation time	×1,000
	Total market value (yen) as of the base time

## Characteristics of the Fund

While the Fund is a contractual-type investment trust, it is structured differently from ordinary investment trusts with respect to the following points:

- ① Units are listed on Tokyo Stock Exchange and can be traded at any time during trading hours.
  - Units may be traded in blocks of 100 units (as of the date when the securities registration statement was filed).
  - Brokers determine brokerage commissions.
  - The method of trading is generally the same as that for stocks.
  - \* Please contact your broker for further information.

- ② The units are subscribed by delivering REIT securities.

The subscription unit is calculated by dividing the market value of the unit REIT securities by the NAV on the day when subscription is accepted, rounded up to the nearest 100 units, and subscription must be made in integer multiples of this unit.

\*\*“Unit REIT securities” refers to all REIT securities of the constituents in the TSE REIT Index, in units designated by the management company, which are assumed to track the performance of the index.

\* Application may be made through the clearing service offered by the financial instruments clearing institution.

- ③ Units may not be redeemed for cash with a request for exchange prior to redemption.

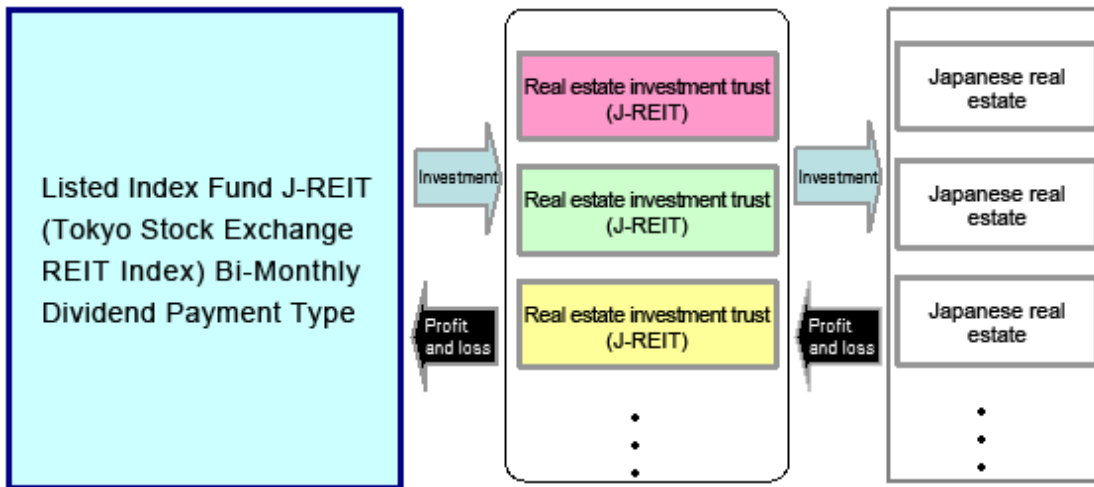

- ④ The units may be exchanged for REIT securities.

- \* The TSE REIT Index component issues selected upon subscription do not necessarily fully match the issues selected upon exchange.
- \* The number of the units created upon subscription does not necessarily match the number of units required upon exchange.
- \* Exchange may be made through the clearing service offered by the financial instruments clearing institution.

\*\*“Clearing service offered by the financial instruments clearing institution” is a scheme to guarantee the execution of settlements by the financial instruments clearing institution assuming obligation of securities pertaining to subscription and exchange of ETF.

## Fund Structure

The fund is structured as a fund of funds, investing in investment trust securities.

## Investment Restrictions

- There is no restriction on the investment ratio in REIT securities.
- The Fund invests mainly in shares of the component REIT securities of the TSE REIT Index. However, this does not apply to REIT securities that are acquired through shareholder allotments.
- The Fund does not invest in assets denominated in foreign currencies.

## Distribution Policy

- As a general rule, the full amount of dividends and other income arising from the trust assets is distributed after deduction of expenses.

\*There is no guarantee on the payment or the amount of dividend.

## Tax Treatment

### Tax treatment for individual investors

#### 1) Taxation upon sale of beneficiary units

- Gains on sale (capital gains) are deemed to be income from transfer and thus must be declared for separate taxation at 20.315%. When a beneficiary has chosen a designated account with withholding tax (withholding tax selection account), withholding tax at a rate of 20.315% will be applied (in principle, tax filing is not necessary).

#### 2) Taxation upon receipt of income distributions

- Income distributions are regarded as dividend income, withholding tax at a rate of 20.315% will be applied (in principle, tax filing is not necessary). You can also file a tax return, and choose either separate taxation based on declaration or consolidated taxation (dividend deduction is not applicable).

#### 3) Exchanges between the units and REIT securities

- Exchanges of the units for REIT securities are treated as transfers of the units and are handled the same way as sale of units.
- By filing a tax return, you can offset capital losses from sale against capital gains from listed stocks, dividends etc. from listed stocks, and interest income from public and corporate bonds and (only if separated taxation is selected). In addition, capital gains from sale, income distributions, and interest income from public and corporate bonds (only if separated taxation is selected) can be offset against capital losses from listed stocks etc.
- When investing through the Nippon Individual Savings Account (NISA), dividend income and transfer income from newly purchased publicly offered equity investment trusts will be tax exempt indefinitely up to a certain amount each year. The tax exemption is available only to those who meet certain conditions, such as opening a tax-exempt account with a distributor, and who purchase products that meet the requirements of the tax law. For details, please contact the distributor.
- If foreign tax credit applies, tax on distributions may differ from the above.
- The above does not apply to Japanese corporations.
- The above tax rates are as of the date when the securities registration statement was filed, so those may change if tax laws are revised. For details of tax treatment, it is recommended to consult a tax professional.

(Reference Information) Total expense ratio of the fund-----

Target period : January 9, 2025 ~ July 8, 2025

Total expense ratio(①+②)	①Ratio of management expenses	②Ratio of other expenses
0.36%	0.32%	0.04%

\* The figure(annualized) is calculated by dividing the total expenses incurred for management and operation during the target period (in principle, excluding subscription fees, brokerage fees and securities transaction tax. Consumption tax etc. is included for items subject to consumption tax etc..) by the average number of beneficial interest units during the target period multiplied by the average NAV (per unit).

\* If the fund (including substantial holdings) invests in REITs (real estate investment trusts), etc., the expenses associated with such holdings are not included in the above figures.

\* When the fund engages in securities lending, the securities lending fee is considered income to the trust assets. However, a portion of this income is deducted as a securities lending-related fee. Any such fees are included in the '② Ratio of other expenses' stated above.

\* These figures are for reference only and differ from the actual ratios of expenses incurred.
