Objective and Characteristics of the Fund

Objective of the Fund

This Fund seeks the net asset value per unit to track the performance of the Nikkei ESG-REIT Index by mainly investing in Real Estate Investment Trust (REIT) securities of the components of the Nikkei ESG-REIT Index. The investment weighting of component stocks in the Nikkei ESG-REIT Index is predominantly determined by the ESG evaluation factor.

- *The Nikkei ESG-REIT Index reflects the assessment of ESG (Environmental, Social and Governance) initiatives of real estate investment trusts.
- *The Nikkei ESG-REIT Index is an aggregate market value × ESG coefficient weighted type index, which applied ESG coefficient granted in accordance with ESG rating by GRESB, an international ESG rating standard, to Real Estate Investment Trusts (J-REIT) listed on the Tokyo Stock Exchange. The Index is calculated with a starting value 1,000 point, the base date November 30, 2016.
- *The component stocks are adjusted every November, in principle.

About stewardship policy

Amova Asset Management (hereinafter, "Amova") considers the ESG factors as an integral part of its fiduciary duty to its clients. Engagement (purposeful and constructive dialogue) with investee companies on ESG issues and the exercise of voting rights are the main means of stewardship activities in stock investment, and Amova takes great care to ensure that the exercise of voting rights serves the interests of its clients. In fixed income management, Amova aims to be an active investor by using other stewardship tools, such as engagement with issuers.

Details of Amova Asset Management's stewardship policy can be found on our website.

Characteristics of the Fund

① This fund aims to achieve investment returns that link with the movement of the Nikkei ESG-REIT Index.

- This Fund seeks the net asset value per unit to track the performance of the Nikkei ESG-REIT Index. It invests primarily in Real Estate Investment Trusts (J-REIT) of the component of Nikkei ESG-REIT Index.
- * The investment management described above may not be carried out due to market and financial conditions.

② Units are listed on Tokyo Stock Exchange and can be traded at any time during trading hours.

- Units may be traded in blocks of 1 unit (as of the date when the securities registration statement was filed).
- Brokers determine brokerage commissions.
- The method of trading is generally the same as that for stocks.
- * Please contact your broker for further information.

③ The units are subscribed by delivering REIT securities.

The subscription unit is calculated by dividing the market value of the unit REIT securities by the NAV on the day when subscription is accepted, rounded up to the nearest 100 units, and subscription must be made in integer multiples of this unit.

**"Unit REIT securities" are all REIT securities of component issues in the Nikkei ESG-REIT Index, in units designated by the management company, which are assumed to track the performance of the index.

* Application may be made through the clearing service offered by the financial instruments clearing institution.

④ Units may not be redeemed for cash with a request for exchange prior to redemption.

⑤ The units may be exchanged for REIT securities.

- * The Nikkei ESG-REIT Index component issues selected upon subscription do not necessarily fully match the issues selected upon exchange.
- * The number of the units created upon subscription does not necessarily match the number of units required upon exchange.
- * Exchange may be made through the clearing service offered by the financial instruments clearing institution.

**"Clearing service offered by the financial instruments clearing institution" is a scheme to guarantee the execution of settlements by the financial instruments clearing institution assuming obligation of securities pertaining to subscription and exchange of ETF.

Investment Restrictions

- The investment ratio in REIT securities (except listed REIT securities) is no more than 5%.
- The Fund does not invest in assets denominated in foreign currencies.

Distribution Policy

- As a general rule, the full amount of dividends and other income arising from the trust assets is distributed after deduction of expenses.

*There is no guarantee on the payment or the amount of dividend.

Reasons for selecting “Nikkei ESG-REIT Index” as a benchmark

The Nikkei ESG-REIT Index is Japan's first J-REIT index*¹ that is calculated by adding the factor of "ESG initiatives," and is an index based on the aggregate market value × ESG coefficient weighted method for REITs listed on the Tokyo Stock Exchange, which reflects the assessment points on E (environment), S (society) and G (governance) by GRESB*². The benchmark was selected to provide more ESG-conscious investment opportunities because REITs with higher ESG ratings are more likely to obtain higher weightings.

*1 As of the launch of the fund (based on Amova Asset Management research.)

*2 GRESB is an organization established in the Netherlands in 2009 by European pension funds to evaluate the ESG performance of the real estate sector based on the environmental performance of properties it owns. ESG evaluations are conducted annually, and a rating (5 levels) is assigned. The evaluation items include the establishment of ESG-related internal rules and regulations, the assignment of managers, information disclosure, and other management systems, as well as efforts to measure and reduce energy consumption and carbon dioxide (CO₂) emissions of owned properties.

Index Construction Process

REITs listed on Tokyo Stock Exchange

● Screening for uninvestable stocks

- Stocks that have been listed for less than two months are excluded (except for stocks whose market value exceeds 1% of the total market value of all listed REITs as of the end of the month of listing).
- Stocks designated as "Securities to Be Delisted" are excluded.

● Liquidity Screening

- Market value of at least 20 billion yen as of the base date
 - Average daily trading value for the most recent one-year is JPY 50 million or above (for stocks listed for less than one year, the value is measured up to the base date from the listing date).
- ※However, for stocks selected in the previous year, stocks with a market value of at least 10 billion yen and an average daily trading value of at least 25 million yen for the most recent one-year will be targets.
- ※The base date is the end of October of each year, and a regular review is conducted once a year at the end of November.

● Weighting of component stocks

- Using coefficients (The ESG coefficient) set according to the ESG evaluation by the GRESB and calculated based on the aggregate market value × ESG coefficient weighting method.

【About ESG coefficients】

- Determined based on the ESG evaluation by the GRESB
- The ESG evaluation by the GRESB is calculated based on responses to questions along two axes, "management" and "performance," with each question classified as E (environment), S (society), or G (governance).

✓ E (Environmental) questions

Measures to monitor and reduce environmental impact, such as management of energy, water, and other consumption in owned properties.

✓ Questions related to S (Society)

Questions about the relationship between the company and its stakeholders and its impact on them, as well as the working environment and health and safety management of its employees

✓ Questions about G (Governance)

Specific goals and procedures for ESG-related initiatives, establishment of persons in charge of its enforcement, etc.

Nikkei ESG-REIT Index

✘The above information is as of the end of July 2025 and is subject to change.

✘All stocks in which the Fund invests are stocks that are included or have been decided to be included in the target ESG index. The Target Index is calculated with an emphasis on ESG characteristics as shown in the index construction process above.

Tax Treatment

Tax treatment for individual investors

1) Taxation upon sale of beneficiary units

- Gains on sale (capital gains) are deemed to be income from transfer and thus must be declared for separate taxation at 20.315%. When a beneficiary has chosen a designated account with withholding tax (withholding tax selection account), withholding tax at a rate of 20.315% will be applied (in principle, tax filing is not necessary).

2) Taxation upon receipt of income distributions

- Income distributions are regarded as dividend income, withholding tax at a rate of 20.315% will be applied (in principle, tax filing is not necessary). You can also file a tax return, and choose either separate taxation based on declaration or consolidated taxation (dividend deduction is not applicable).

3) Exchanges between the units and REIT securities

- Exchanges of the units for REIT securities are treated as transfers of the units and are handled the same way as sale of units.
- By filing a tax return, you can offset capital losses from sale against capital gains from listed stocks, dividends etc. from listed stocks, and interest income from public and corporate bonds and (only if separated taxation is selected). In addition, capital gains from sale, income distributions, and interest income from public and corporate bonds (only if separated taxation is selected) can be offset against capital losses from listed stocks etc.
- When investing through the Nippon Individual Savings Account (NISA), dividend income and transfer income from newly purchased publicly offered equity investment trusts will be tax exempt indefinitely up to a certain amount each year. The tax exemption is available only to those who meet certain conditions, such as opening a tax-exempt account with a distributor, and who purchase products that meet the requirements of the tax law. For details, please contact the distributor.
- If foreign tax credit applies, tax on distributions may differ from the above.
- The above does not apply to Japanese corporations.
- The above tax rates are as of the date when the securities registration statement was filed, so those may change if tax laws are revised. For details of tax treatment, it is recommended to consult a tax professional.

(Reference Information) Total expense ratio of the fund-----

Target period : January 9, 2025 ~ July 8, 2025

Total expense ratio(①+②)	①Ratio of management expenses	②Ratio of other expenses
0.26%	0.16%	0.10%

* The figure(annualized) is calculated by dividing the total expenses incurred for management and operation during the target period (in principle, excluding subscription fees, brokerage fees and securities transaction tax. Consumption tax etc. is included for items subject to consumption tax etc..) by the average number of beneficial interest units during the target period multiplied by the average NAV (per unit).

* If the fund (including substantial holdings) invests in REITs (real estate investment trusts), etc., the expenses associated with such holdings are not included in the above figures.

* These figures are for reference only and differ from the actual ratios of expenses incurred.
